#### Description:

This guide's six double-sided panels fold up into a handy narrow packet which is sized to fit in your back pocket yet sturdy enough to stand up under repeated use. Lamination has also made the guide waterproof. It describes over 35 species of snakes found in Central Texas, including 6 venomous snakes. The guide also features color photos that makes it ideal for field use. Common and scientific names, average adult size, habitat, diet, and behavior are described. Tips on field identification and safety instructions are also discussed. Identify that unexpected visitor in your yard or while out and about. Excellent for nature enthusiasts of all ages.

We bought several copies, and keep one on each of our off-road golf carts and 4-wheelers. Helps anyone at our place here in Fayette County, TX to quickly ID snakes that they encounter, so that the bad guys can be eliminated and the good guys can be given a pass. Most folks just wanna kill every snake they see, when in reality most of the snakes are not only harmless, but beneficial - they eat mice and rats, etc. For example, recently there was a 4 foot snake of a type we had never seen before, near our well house. He had a large, thick body, and was a scary looking critter. But the chart photo showed that he was a Desert King snake; not only is he harmless, but he eats venomous snakes!!! (as well as rodents.) Definitely not one that we would want to shoot!
